

**REMARKS**

This application is being filed concurrently with entry into the National Stage (Chapter 1) of International Application No. PCT/GB2005/000781 which claims the priority of Great Britain Patent Application No. 0406230.3.

This Preliminary Amendment was considered when calculating the filing fee. Accordingly, the total number of claims specified on the Transmittal Letter is 28 and the number of independent claims is 4.

The Specification has been amended to place the application in proper U.S. format. Headings have been added to each section. No new matter has been introduced. The added text following the heading "SUMMARY OF THE INVENTION" is taken from the claims of the priority application. No new matter has been introduced.

The claims have been amended to remove multiple dependencies as well as to clarify the invention. For example, where appropriate, the word defining the type of means was added before the word "means" for clarification. No new matter has been introduced.

No additional fees are due at this time. However, if the Commission deems that additional fees are due, he is hereby authorized to charge to Deposit Account No. 02-2865 any additional fee required by this submission.

Respectfully submitted,
